

THE
YUMMY
BOX

DON'T WAIT. AUTOMATE!

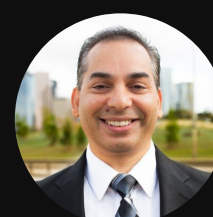

by **The Yummy Box**

We help restaurants run their operations more efficiently by making the exchange of goods fast, secure, and convenient for customers and their partnerships with third-party delivery services (Uber Eats, DoorDash, and GrubHub).

Since our soft launch in April 2020, we've processed over 38,000 faster pick-ups for Uber Eats, DoorDash, and the customers of your neighboring restaurants, such as Gatlin's BBQ, Lucy Pearl's, and This Is It Soul Food.

This success helped us earn the support of Daymond John from Shark Tank, boost restaurant takeout orders, and help restaurant operations make their customers happier with faster pick-up, which is pretty cool.

TRANSPARENT ABOUT EVERYTHING

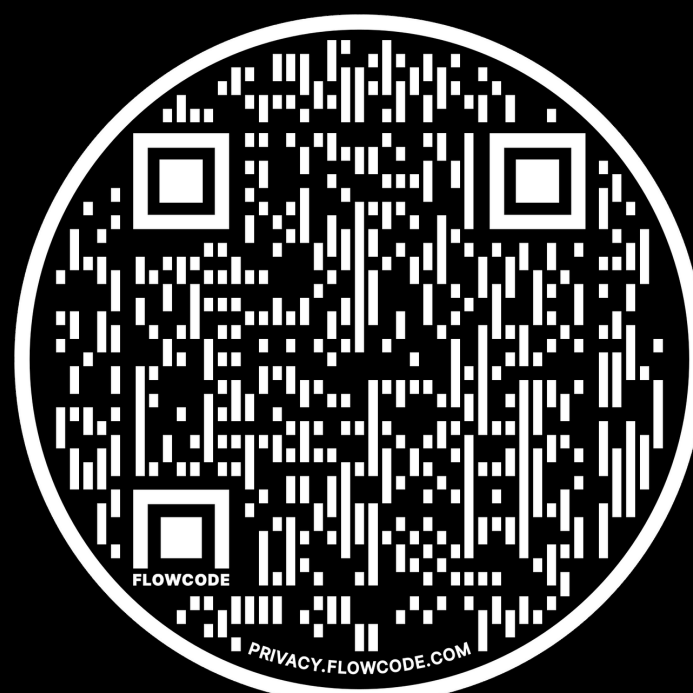

QUICK SUMMARY

- Boost customer takeout
- Save on delivery fees
- Prevent order theft
- Increase order freshness
- And optimize staff efficiency

BENEFITS DEFINED

1. Increase profits by enticing customers to pick up orders, reducing third-party delivery & commission fees.
2. Eliminate the need to constantly monitor mobile pick-up shelves to prevent theft.
3. Ensure top-notch food quality with insulated compartments and freshness monitoring.
4. Avoid disruptions from third-party delivery services at service counters.
5. Transition to a tech-friendly operation by moving away from outdated takeout counter-staffing models.
